YOU'RE
AWESOME

Don't forget that your role as an "architect" of the built environment calls for a unique blend of an observer, problem solver, and a change agent."

Boise Regional Realtors and ACHD**

If you plan cities for cars and traffic, you get cars and traffic.

If you plan for people and places, you get people and places.

Place-based

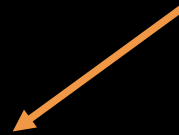

Highway 93, Missoula, Montana

There was a time when we built transportation through communities; today we build communities through transportation.

What people once asked you to build. Get us to where we can afford a mortgage, and fast.

What people now want you to build. Support local businesses, walkability and quality of life.

Effective public participation can lead to shortened times to construction

The Sammamish public works director was told it would take 10 years to go from concept to concrete.

Bulldozers were moving dirt on this formerly unfunded project in 300 days.
